

JW's 'Doodles and Giggles'

Photographs by Kelly Haehnel

Nearly \$70,000 was raised Nov. 6 at "Doodles and Giggles," a silent auction featuring artwork by Jan-Willem Knappen. JW, who has a brain tumor, is determined to build JW House, a place where young cancer patients like himself and their families can stay while undergoing treatment at Kaiser's new medical center under construction in Santa Clara. Helen Owen is the chairwoman of the JW House committee.
